Policy for Educational Visits

Approved by the Governing Body:	February 2010
Interim Review:	September 2021
Review Date:	September 2022
Head Teacher:	Maggie Fearnley

Roseberry Primary Educational Visits Procedure

All visits that are deemed high risk i.e. residential visits, visits abroad and visits which contain hazardous activities should be risk assessed in school and approved by the LEA. All other visits should be risk assessed in school and approved by the Head teacher.

Roseberry Primary School does not have a policy for Educational visits but follows the DCSF policy which has been adopted by Stockton Borough Council.

Further information about visits can be found in the handbook – good practice guide which is available in the educational visit file within Staff Shared on the desktop.

We will keep a generic risk assessment form for walks around the local area (park, library etc.) and walks to the swimming baths. These should be read prior to the walk and reviewed yearly. These can be found on desktop.

Risk assessments gained from centres should not replace schools risk assessment form but should act as guidance on completion.

Pre visit

Plan the visit well in advance; visits should be planned when planning the units of work for the year at the beginning of each academic year (visits should be planned at least half a term in advance).

Gain the approval of the Head Teacher for the trip to take place.

Decide who will lead the visit.

Contact the place you wish to visit provisionally to arrange dates and costs. Most places now have their own risk assessment for school groups. A copy should be sent to the school.

Ask Office staff to contact coach companies/rail to cost the transport (a list of school approved coach companies is available from the office)

Ask the Office staff to book transport if suitable.

Inform the kitchen of the number of packed lunches that will be needed (please give the kitchen staff sufficient notice i.e. 2 weeks before the visit).

Go on a teacher pre-visit before completing the risk assessment form.

Ensure that the correct ratio of adults to pupils is maintained for the visit and that a first aider will be present. In Early Years, a qualified paediatric first aider needs to be present. Whilst there are no recommendations on numbers, Government Guidance suggests that ratios should follow:

- 1:6 for children in Years 1-3
- 1:10 for children in Years 4-6
- Higher ratios in The Early Years

Read 'General Risk Assessment – notes of guidance', which can be found in Staff Shared in the Risk Assessment folder.

Complete the risk assessment rating form (available in Staff Shared with notes for completion).

Complete risk assessment form. Include points from the generic coach travel risk assessment (saved on the shared system). Extra considerations should be given to trips to the seaside or farms (see handbook- good practice guide for further details). Always have a plan B for outdoor activities; this should be included on the risk assessment.

With pupils, complete risk assessment forms (example completed form available in Staff Shared in the Risk Assessment folder)

Pass risk assessment forms to the Head Teacher to be signed and approved at least 2 weeks prior to the visit. Brief pupils of expected behaviour and potential hazards

Send out a parent's letter outlining the arrangements and cost of the trip. A consent form should be attached at the bottom for parents to return and complete.

Collate sandwich choices and forward to the kitchen 2 weeks in advance of the trip taking place

Ensure all consent forms are collated and make contact with those parents who have not returned the form at least one week prior to the visit taking place.

One week prior to the trip taking place all money needs to have been collated (a minimum of 90% funding is required for trips to go ahead).

Once collected, all monies to be handed to the office – checked and signed.

Share the risk assessment with all of the adults going on the trip.

Extra considerations should be given for trips to the seaside or farms (see handbook – good practice guide for further details).

During the visit

Ensure that each member of staff has a copy of the risk assessment and any helpers are aware of risks and the controls for them.

Complete ongoing risk assessments during the trip to ensure any unexpected events are dealt with in the best way.

Ensure that the lead person on the trip has the school mobile.

If there are any unexpected problems on the visit school should be informed immediately.

A designated person should be given the role of first aider for the duration of the visit.

Post Visit.

A post visit evaluation should be completed (these are on the bottom of the risk assessment form)

Any accidents that occurred on the visit should be recorded in the school accident book. If children are badly injured or hurt during the visit Stockton Council should be informed and their internal report procedure completed.

It is a legal requirement that a paediatric first aider should accompany EYFS children on any visits out of school.

Roseberry Primary School
Checklist for Planning an Educational Visit

	Date to be completed	Date completed
Plan the visit well in advance – visits should be planned when planning the units of work for the year at the beginning of each academic year. If this is not possible then visits should be planned at least half a term in advance.		
Gain the approval of the Head teacher for the trip to take place.		
Decide who will lead the visit.		
Contact the place you wish to visit to provisionally arrange dates and costs. Most places now have their own risk assessment for school groups. A copy of this should be sent to school.		
Ask the office to contact coach companies/ rail to cost the transport.		
Ask the office to book the coach, confirm place of visit and inform the kitchen of lunch arrangements for the date		
Go on a pre-visit before completing the risk assessment form.		
Ensure that you have the correct ratio of adults to pupils for the visit and a first aider will be present. A qualified paediatric first aider needs to be present in The Early Years. Recommended ratios are: 1:6 for children in Year 1-3 1:10 for children in Years 4-6 Children in The Early Years should have higher ratios		
Read 'General Risk Assessment – notes of guidance', this is available on the shared area.		
Complete the risk assessment rating form.		
Complete risk assessment form. Include points from the generic coach travel risk assessment (saved on the shared system). Extra considerations should be given to trips to the seaside or farms (see handbook- good practise guide for further details). Always have a plan B for outdoor activities; this should be included on the risk assessment.		
Involve children in the risk assessment, show the completed risk assessment and add their further suggestions, these should be coloured blue to show the children's involvement.		
Give completed forms to the Head Teacher to be signed and approved; this should be done at least 2 weeks prior to the visit.		
Send out a letter informing the parents (at least 3 weeks before the planned trip). This should outline the arrangements and the cost of the trip. A consent form should be attached at the bottom for parents to return and complete.		
Collate sandwich choices and forward to the kitchen 2 weeks in advance of the trip taking place.		
Ensure all consent forms are collated and make contact with those parents who have not returned the form at least one week prior to the visit taking place.		
One week prior to the trip taking place all money needs to have been collated. (A minimum of 90% funding is required for trips to go ahead).		
All monies to be handed to the office – checked and signed.		
Share the risk assessment with all of the adults going on the trip.		
On the trip – ensure that a first aid kit is taken, ensure that a school camera is taken (no photographs on mobile phones or personal cameras should be taken), ensure that one member of staff takes the school mobile phone ; this should only be used in emergencies for contact with school. If taking nursery children on a visit ensure that you have names and contact details for all children taken.		

Roseberry Primary School Visit Risk Assessment

RISK ASSESSMENT RATING - Highlight appropriate degree of risk.

Degree of risk	The activity	The pupils	Group Leader	Environment	Access to first aid	External factors
Low risk 1	Within the everyday experience of the individual/group	Very experienced at appropriate level.	Experienced and qualified at appropriate level.	Urban or rural with hazards that are predictable.	First aid and emergency support is readily available. Staff qualifications at an appropriate level.	Weather appropriate to activity, any changes will have no adverse effect on the group.
2	Outside the everyday experience of the individual/group but some tasks have familiar aspects.	Regular exposure to the activity. An adequate level of competency.	Low qualifications. Regular participant.	Urban or rural with hazards that quickly change.	First aid and emergency support is readily available. Teachers low qualification in first aid.	Weather appropriate to the activity. Any changes will have minimal effect but will not affect safety.
3	Tasks unfamiliar but competency has been achieved in training	Experience at a recreational level. Some competency.	Low qualifications. Some participation.	Industrial. Over night stay.	First aid and emergency support is readily available. Staff unqualified in first aid.	Weather changes could lead to problems if group is not adequately prepared or equipped.
4	Tasks unfamiliar but training has been given	Some experience at an introductory level. Not competent.	Some experience as a leader. Limited or recreational participant only.	Close proximity to water, cliffs or other hazardous features. Travel abroad in urban areas.	No first aid and emergency support is readily available. Staff hold relevant first aid certificate.	Weather changes could lead to serious problems if the group is not competent in the activity or poorly equipped.
5 High risk	Tasks unfamiliar. No training	Novice. No experience	No experience of activity as a leader. Some experience as participant.	Travel abroad in demanding terrain.	No first aid and emergency support is readily available. Staff have no qualifications.	Weather changes could have serious consequences for the group.

Add up the total score and assess the risk from the grid below.

6-10-Low risk The possibility and nature of an accident occurring are not substantially different to those occurring in everyday experience.	11-19-medium risk The hazards encountered are outside the group's experience but adopting principles of good practise should bring them to an acceptable level.	20 -25-High risk The hazards encountered are beyond the everyday experiences of the group. The repercussions of an accident could lead to serious consequences.	26-30-Unacceptable risk The hazards encountered are far beyond the experience of the group and the group leader and the visit should not go ahead.
